EXCEPTIONAL RESULTS WITH FACET INTEGRATION

**2014 Central Area Summit
Merrillville, IN**

What is Integrated Programming?

- An integrated program is a program formulated on one lead facet and has program elements for at least two other facets.
- Integrated programming is encouraged in order to increase collaboration and efficiency.

THE CENTRAL AREA

GOAL

To Show how facets working together can achieve greater results and better programming.

**2014 Central Area Summit
Merrillville, IN**

SIX STEPS TO FACET INTEGRATION

- STEP 1: Determine needs or problems of the community and show how program can make a difference.
- Step 2: Determine community resources
- Step 3: Make sure data can be collected so measurable goals/objectives can be quantified

- STEP 4: Develop partnerships to assist with programming and financial needs
- Step 5: Search for free places where program can occur
- Step 6: Make sure program can be effectively communicated to and publicized in the community
